

Delo Knowledge offers unparalleled insights into the cosmos, atoms, and molecules, seamlessly connecting these realms through ancient wisdom and modern scientific discoveries. This remarkable series of films, summarized in the QR code link below, introduces you to different facets of this profound knowledge. Each film takes you on a journey—beginning with the cosmos, exploring the atomic world, and unraveling the mysteries of molecular connections—helping you understand the universe in a way you've never experienced before.

In the celestial discoveries section, you will encounter three black holes near the Sun and Earth that follow unique laws. You'll also learn about the creation of a revolutionary calendar based on the movements of the Moon, Earth, Sun, and these black holes. This calendar not only tracks celestial events such as solar flares (weak and strong), eclipses, and the motion of the North Star through the ages but also offers a ground breaking perspective on cosmic rhythms.

In the atomic section, the fusion of celestial movements with modern physics provides a deeper understanding of the dual worlds of matter and antimatter. This knowledge helps define their building blocks in greater detail, introducing a new periodic table based on orbital pathways and motions. Through this table, atoms connect elegantly into molecules, revealing the beauty and simplicity of atomic relationships.

Finally, ancient wisdom shows the divine presence in all dimensions of existence by linking the cosmos, atoms, and molecules in a harmonious whole.

- Keep in mind that the Delo Knowledge series spans 1,000 pages, and what is presented here is a condensed selection of key insights, summarized in less than 30 pages. Uncover the profound depth and wisdom of Delo Knowledge for yourself—a transformative experience that could forever change your perspective on the universe.

If you find the subject intriguing and wish to explore it further, I would be delighted to provide additional information and share my **Delo Knowledge** book series with you. These books offer detailed and interconnected explanations of the cosmos, atoms, and molecules, presenting a unique perspective on the universe.

### **The Revelations of Delo's Knowledge: Unlocking the Secrets of the Divine**

First, it prepares your mind to receive and uncover the insights of Delo Knowledge, illuminating the movement of the cosmos based on ancient symbolic knowledge and teachings.  
Total Duration: 22:16

### **Unveiling the Cosmic Clock**

This series of films guides you through the stages of discovering three black holes near the Sun and then creates an extraordinary calendar based on their movements, defining all solar flares, whether weak or strong, with precision. The calendar is built upon this celestial motion.  
Total Duration 52:11

### **Unveiling of the new periodic table of atoms and molecular compositions**

This series of films introduces you to the atomic world and, using the movements of the cosmos, provides a deeper understanding of the atom through insights from nuclear physics. It bridges the two realms—the atomic and the cosmic—connecting them through this knowledge.  
Total Duration 32:45

### **Unveiling the Divine Power: Learn from the Words of the Compassionate Father, Mithra, and the Teachings of Zarathustra, Then Mani**

This series of films, drawing upon ancient wisdom, unveils extraordinary secrets that highlight the precision, intellectual power, and elevated mindset of the ancients in their exploration of the universe.  
Total Duration: 33:06
